

LAWN SAND

Field of application:

100% quartz sand, multiply washed, removed from dust, cooled and sieved. For topdressing after scarifying and ventilating lawns, for evening out irregularities of lawns and for the creation of new lawns.

Characteristics (at the moment of production):

grain size (mm) 0,3 - 1

- Peat free
- Organic
- Peat reduced

Intendend Purpose / Application:

After the scarifying and ventilating the product should be worked in with a broom or a rake. For adjusting irregularities in the lawn, the product should be mixed (1:10) with peat. Apply only in spring or autumn. For the creation of new lawns use 30 litres per square meter and work it into the soil steadily. For topdressing after scarifying and ventilating use 1,5-3 litres per square meter and work it steadily into the soil, too.

quartz sand

The product should be stored in a dry and cool place and protected against direct sunlight. Our advice would be to use up the product as soon as possible. When stored for a longer period of time, the product should be analyzed before it is used. If questions occur, please get in touch with your contact person or the technical department of horticulture at Florigard (Tel. +49 441 2092-0).
