Constituents and additives

Effect on the potting soil

Strongly decomposed raised-bog peat (black peat)	increases the water holding capacity and improves the water uptake
Lime (Calcium carbonate)	adapts perfectly the pH-value to the specific requirements of the plants
Top-Quality compound fertilizer	supplies the plants immediately with all macro and micro-nutrients
Guano	organic natural fertilizer assures a natural nutrient supply for a long time

Black peat

The product should be stored in a dry and cool place and protected against direct sunlight. Our advice would be to use up the product as soon as possible. When stored for a longer period of time, the product should be analyzed before it is used.
