Chemical characteristics (at the moment of production)

pH-value (CaCl ₂)	5,6
Salt content (g/l)	1,3
N-nitrogen (CaCl ₂)	220 mg/l
P ₂ O ₅ -phosphate (CAL)	130 mg/l
K ₂ O-potassium (CAL)	250 mg/l

Recipe:

101368

Hint for availability of nutrients:
The nutrients are sufficient for a period of up to four weeks

- Peat free
Organic
Peat reduced

Constituents and additives

Effect on the potting soil

Slightly decomposed raised-bog peat (white peat)	increases the air capacity and improves the structural stability
Strongly decomposed raised-bog peat (black peat)	increases the water holding capacity and improves the water uptake
Pure quartz sand	improves drainage and reduces the risk of water logging
Lime (Calcium carbonate)	adapts perfectly the pH-value to the specific requirements of the plants
Top-Quality compound fertilizer	supplies the plants immediately with all macro and micro-nutrients
Guano	organic natural fertilizer assures a natural nutrient supply for a long time

The product should be stored in a dry and cool place and protected against direct sunlight. Our advice would be to use up the product as soon as possible. When stored for a longer period of time, the product should be analyzed before it is used. If questions occur, please get in touch with your contact person or the technical department of horticulture at Floragard (Tel. +49 441 2092-0).
